

## Wistow Parish Council Playground Improvement Survey

Wistow Parish Council is applying for grant funding to replace the multi-play equipment at the playing field and we would like to hear the views of local residents, parents, carers, and children.

We have identified six potential options and are seeking feedback from the community to help us understand which equipment would be most valued and best meet the needs of local families. Your responses will help inform the Council's decision-making process and ensure that any improvements reflect the preferences of those who use the playground most.

Please review the six proposed pieces of equipment below before you complete the survey. Each piece of equipment has a description about the equipment together with its price and visual picture. There is also a synopsis of the equipment at the start of this information pack. Wistow Parish Council will be applying for grant funding of up to £20,000.

Disclaimer: The play equipment shown is subject to grant funding being secured. Final equipment selection and placement will be determined based on the most suitable locations within the playground.

Option	Multiplay Name	Amount
1	Young Explorer Cook	£19,729.00
2	Tree Top Towers (Kora)	£17,398.00
3	Young Explorer Mallory	£20,335.33
4	Levant	£20,092.00
5	Young Explorer Megellan	£18,419.70
6	The Mulberry	£19,710.00

### **Option 1 - Young Explorer (Cook)**

**Price: £19,729.00**

#### **Bio**

Designed with an emphasis on maximizing play value, the Young Explorer – Cook is an invitation to adventure! Each component offers a range of physical challenges, promoting healthy development and active play for children of all abilities. This dynamic range is designed to be inclusive and engaging. Allowing every child to explore their adventurous side in the safety of your playground.

The added elements of the climbing wall, rope pull up and firefighters pole add an extra sense of adventure.

What sets the Young Explorer Range apart is its versatility. Whether a child is taking their first tentative steps onto a climbing frame or conquering a challenging rope net, there's something to spark imagination. Encouraging them to push their boundaries. We've incorporated a variety of features to cater to different ages and skill levels, including:

- **Graduated Challenges:** From gentle slopes for younger children to towering climbing structures and exhilarating slides for older children, the range offers a progression of challenges that builds confidence and encourages skill development.
- **Diverse Activities:** The Young Explorer – Cook includes a variety of activities like climbing, sliding, balancing, and imaginative play. Ensuring there's something to capture every child's interest.
- **Safety First:** While encouraging adventure, safety is our top priority. All equipment in the Young Explorer Range is manufactured to the highest safety standards to ensure it's safe and durable. We also offer a range of safety surfacing options to further enhance the safety of your playground.

**Option 1 - Young Explorer (Cook)**

## **Option 2 – Tree Top Towers (Kora)**

**Price: £17,398.00**

### **Bio**

Offering a rich variety of physical, sensory and social play experiences suitable for all ages the Kora unit incorporates climbing, stepping, balancing, sliding, crawling, hanging and more, each encouraging varied physical development. Children can climb using nets and ladders to improve strength and coordination, cross bridges and elevated walkways to enhance balance and control and enjoy the exhilarating downward motion of the slide as reward. Spaces beneath platforms encourage crawling and imaginative play, while overhead bars and handholds promote reaching, swinging and upper body movement.

The interconnected design of the Kora allows children to choose their own routes and challenges, supporting exploration, risk-taking and problem-solving. Its multi-level layout encourages social interaction and cooperative play as children navigate the structure together, building confidence and communication skills.

Accessibility and inclusivity are integral to the design. Level surfacing and wide access points allow wheelchair users and those with limited mobility to participate alongside their peers. Transfer platforms and ground-level sensory play panels provide stimulating experiences for children of all abilities, ensuring engagement regardless of physical capability. The structure's contrasting colours and tactile elements further enhance sensory value for visually impaired users.

**Option 2 – Tree Top Towers (Kora)**

### **Option 3 – Young Explorer (Mallory)**

**Price: £20,335.33**

#### **Bio**

Designed with an emphasis on maximizing play value, the Young Explorer – Mallory with Poly Slide is an invitation to adventure! Each component offers a range of physical challenges, promoting healthy development and active play for children of all abilities. This dynamic range is designed to be inclusive and engaging. Allowing every child to explore their adventurous side in the safety of your playground.

The addition of the climbing wall, firefighter's pole, and bridge combine to create a truly adventurous experience on this Young Explorer, making it perfect for a KS2 playground.

What sets the Young Explorer Range apart is its versatility. Whether a child is taking their first tentative steps onto a climbing frame or conquering a challenging rope net, there's something for all. Encouraging them to push their boundaries.

We've incorporated a variety of features to cater to different ages and skill levels, including:

**Option 3 – Young Explorer (Mallory)**

#### **Option 4 – Levant**

**Price: £20,092.00**

#### **Bio**

The Levant Multi-Play Unit exemplifies inclusive design, offering a wide range of engaging play experiences for children of different ages and abilities. With four distinct deck heights, this versatile structure ensures that every child, regardless of physical capability, can enjoy the playground. Designed with accessibility in mind, features like the 'Caldera Crawler,' featuring handrails for climbing assistance and stimulating crawling play. The 'Midi Inclusive Slide' provides thrilling, safe descents for all, ensuring accessibility for children with diverse abilities. Play panels such as the 'Solar Energy Spinning Panel' and the 'Plant Your Tree' are strategically placed to engage children from seated or standing positions, fostering cooperative play and social interaction. The Levant Multi-Play Unit promotes balance, coordination, and social skills, encouraging creativity and collaboration in a supportive play environment. Ultimately, it transcends traditional playground equipment, creating a dynamic space where children of all abilities can come together to play, learn, and thrive.

Option 4 – Levant

### **Option 5 – Young Explorer (Magellan)**

**Price: £18,419.70**

#### **Bio**

Designed with an emphasis on maximizing play value, the Young Explorer – Magellan 1200mm is an invitation to adventure! The larger tower in the range, each component offers a wide range of physical challenges, promoting healthy development and active play for children of all abilities. This dynamic range is designed to be inclusive and engaging. Allowing every child to explore their adventurous side in the safety of your playground.

What sets the Young Explorer Range apart is its versatility.
